

STARLIGHT SKYLIGHTS

Custom Sizes, Shapes,
and Colors

Curb Mounts;
Fixed and Vented

Flat Roof Application

Special Applications

The Starlight Skylight series of skylights and curb mounts is truly broad and versatile. Each model may be modified in shape, size, and color to meet individual tastes and installation requirements. All models feature our standard welded construction, warm edge technology, wide variety of glazings, and the quality you have come to expect from Starlight Skylights. These Special Application Models will help save you time and money.

Custom Sizes, Shapes, and Colors - Starlight Skylights are available in a wide range of sizes, shapes, and colors; both fixed and vented. Most models will come complete with our unique double flashing system that eliminates air infiltration and leaks. Cost and turn-around-time are both incredibly low. Call us with your unique projects.

Curb Mounts; Fixed and Vented - Starlight Skylights come in Curb Mounted models, both fixed and vented. Vented models include a removable insect screen. Curb Mounts are a real money saver for remodeler's who want to upgrade to a premium glass skylight but do not want to disturb the original interior.

Flat Roof Applications - The unique double flashing system of standard Starlight Skylight is effective down to a $\frac{3}{12}$ pitch. For flat roofs and near flat roof applications order a Starlight Skylight with the Flat Roof Flashing Kit. The Flat Roof Flashing Kit is installed at the factory making your installation in the field both quick and easy. Several trim-out options are available, call for details.

Gang Flashing Kits - For added flexibility an unlimited number of Starlight Skylights can be installed in groups using the Starlight Skylight Gang Flashing Kit. Skylights of the same length can be grouped side-by-side and skylights of the same width can be grouped over-and-under. Custom made for each installation ensures a perfect fit every time.

Decorating Accessories

Shades - Accordion Pleated Shades are available in style setting colors to compliment any decor. Shades are available to fit all standard skylight models as well as most custom skylights. For your convenience Side Channels are included with every shade. Telescoping poles are available in two sizes: Standard (6½') and Long (9½').

Venting Unit Accessories

Starlight Skylights venting skylights and roof windows come standard with a manual operating system, complete with handle. For out-of-reach locations and special arrangements the following accessories are available:

Sentry 2000™ Standard Venting Motor and Wall Switch - Venting skylights can be ordered or retrofitted with a compact quiet motor that opens the unit with a simple touch of a switch. Up to three skylights can be operated from a single switch.

SkySentry® Deluxe Venting Motor, Rain Sensor, and Wall Switch

Want protection against sudden rains while you are out? Relax, the SkySentry® is on duty. This system has all the smarts to virtually run by itself. This system comes standard with a rain sensor. Optional, hand held remote control allows operation of your skylight from anywhere in the room. For even more protection the motorized system can be hooked up to a thermostat, an electric smoke detector, or even home control or security systems.

◀ Rain Sensor

Telescoping Poles and Adapters

Telescoping Poles are available in two models: Standard (48" to 74") and Long (74" to 122") for manual operation of elevated venting skylights. Telescoping poles can be ordered with Hook or Hex Ball Adapters.
